

# OR501B, OR510 Outdoor Remote Stations Specification Sheet

IL438  
Section B  
Rev. 12-03/2008

**OR501B, OR510**

## ARCHITECTS' AND ENGINEERS' SPECIFICATION

Outdoor remote stations shall be TekTone® models OR501B, OR510, or approved equal. The stations shall be constructed of a rugged extruded aluminum panel with a momentary action push button switch for call placement.

The speaker/microphone shall be 2.5" Mylar with voice frequency response. Push button and speaker grill shall be constructed of durable ABS plastic.

Screw terminals shall be provided for electrical connections.

## FEATURES

The OR501B and OR510 Outdoor Remote Stations provide call capability and two-way, hands-free communication to inside master stations for a variety of TekTone® systems.

Used typically as outside door stations, the OR501B and OR510 are rugged, dependable units designed to provide natural, clear voice communication, simple push button operation, and hands-free reply. The stations are ideal for outdoor use in office, home, plant, warehouse, retail business, penitentiary and similar applications.

Operation of the stations is simple and efficient. Pressing the call button causes an audible or audible/visual signal (depending upon system in use) at the inside master station location. The identity of the caller may then be determined and entry to the home or building permitted, if so desired, and if system in use permits.

- Simple push button operation
- Hands-free reply
- Clear voice quality

## SPECIFICATIONS

Dimensions: Height: 6.875" Width: 5" Depth: 1.25"

Construction: Rugged extruded aluminum panel with ABS plastic grill and push button.

Finish: Brushed aluminum

Push button: Individually replaceable type with self-wiping contacts.

## REQUIRED COMPONENTS

OR501B: Tek-CARE® NC150 or Tek-COM® IR704BD Systems.

OR510: Tek-COM® SM201B System.
